

## INTRODUCTION

The goal of choosing two different academies to learn the metaphysical science of Feng Shui is the intrinsic desire to explore similarities and differences in methods, tools and approaches and to achieve a double diploma in this field. The selected academies of my choice were:

Yap Cheng Hai Academy [www.ychacademy.com](http://www.ychacademy.com)

Mastery Academy of Chinese Metaphysics [www.masteryacademy.com](http://www.masteryacademy.com)

Both academies teach in modules and the education can take up to three and even more years to master all modules. The final course of both study programs is the graduate course. My impressions of both graduate courses are published on this website to provide the reader an idea on what Feng Shui is about.

### **Graduate Feng Shui Practitioner's Course in Kuala Lumpur September 11-18, 2005**

Students from 18 different countries came together to go for the Yap Cheng Hai (YCH) Academy Certificate for the Feng Shui Master Practitioner. Feng Shui practitioners can only participate if they are invited by Grandmaster Yap Cheng Hai to join the last module of the Feng Shui program. It is an "only by invitation" course.

The course was taught by Grandmaster Yap Cheng Hai personally and his son Master Boh Chu at the Yap Cheng Hai Academy in Kuala Lumpur, Malaysia.
