

Graduate Master Practitioner Course Feng Shui Mastery Series in Kuala Lumpur, Malaysia

October 18, 2005

Day 1 – Lecture Luan Tou – Landform Feng Shui

Our first designated meeting point was located in the heart of Kuala Lumpur, in the Business Centre of the Mandarin Oriental Hotel right next to the fabled KLCC Twin Towers – the tallest twin towers in the world and for quite a while, the tallest building in the world.

The 2005 Feng Shui graduating master program of Mastery Academy's Feng Shui Mastery Series started off with Luan Tou, landform Feng Shui. The 500 pages of notes and diagrams folder started with the heart of Feng Shui classics. Master Trainer Joey Yap began with fundamentals of Luan Tou, which refers to the external and greater external environment. The Landforms, and not Flying Stars or Eight Mansions, determine the quality and capacity of Qi of a property. No Feng Shui practitioner can profess to having truly mastered the art of Feng Shui without a sound knowledge of Luan Tou.

The first night ended with a very enjoyable eight-course orientation dinner. This gave us all a chance to get to know each other better. Among a handful of Malaysian students there were many international students as well. Germany, Canada, America, UK, USA, Greece, South Africa, Singapore, Australia, just to name some countries – all brought together by our passion for authentic Feng Shui.
